

Drainage Board met in their regular meeting place in the Commissioner’s Room of the courthouse on September 9, 2013 at 10:00 a.m. with the following present: Mark Bacon, Ken Masters, Bruce W. Levi, members; Leigh Morning, Board attorney; Marvin L. Rees, Surveyor; Michele Gordon, secretary. Warren Norris, councilman, was also present.

Minutes of the previous meeting were approved and signed by motion of Masters, with a 2nd by Levi.

MUTUAL DRAIN

A meeting was held with Rupert Warner to discuss the drainage concerns voiced by Frank Harpring. Mr. Warner has placed large rock to keep water from coming onto his property that he says does not belong there. He claims it is not his water so it shouldn’t be on his property. The Board is going to ask highway superintendent Jerry Sitton to look at the area to see if cutting a ditch in the county road right-of-way might help keep the water off of Mr. Warner’s property. If that is not a viable solution, then Mr. Harpring would need to file a petition in order for the Drainage Board to get further involved.

NORTH SIDE DRAIN

At the August 26, 2013 meeting the decision was made to dismiss the petition that was filed for the North Side Drain. Paperwork was handed to the Board to sign that was not available for them at the August meeting.

WM CROSS WEST TILE

The Surveyor reminded the Board that bids will be opened for this reconstruction project at the next meeting.

PERRY DAVIS TILE – HEARING

The hearing was called to order. Kathleen McDaniel was the only landowner present. The Surveyor gave his report which states that the proposed project is to install a new tile that would bypass the tile that currently goes through the woods owned by Mr. Souder. The tile through the woods would not be destroyed. He then stated that no objections had been filed. The Board discussed the fact that this project seems to be helping only one landowner and they felt that another hearing would be necessary to vacate the portion of the tile that will remain through Mr. Souder’s woods and turn it over to him to maintain once the reconstruction project is complete. A motion was then made by Masters, with a 2nd by Levi, to proceed with the reconstruction project. Motion carried and the Final Order was signed. A motion was then made by Levi, with a 2nd by Masters, to close the hearing. Motion carried.

There being no further business to come before the Board a motion to adjourn was made by Masters, with a 2nd by Levi. Motion carried.
